

Backlit films – Product information

Our Backlit film is the perfect product for small and large jobs for backlit applications. The robust 200 mic. thick film is compatible with all common solvent, latex and UV ink systems. The satin gloss surface ensures high colour density. Backlit or not, it will catch everyones attention.

In addition to its excellent colour brightness Papilio Backlit is also exceptionally robust: The scratch-resistant surface and outstanding lie-flat properties make on-site mounting simple and secure.

Dimensions

200mic - 0914mm(36`) - 30m, PSO

200mic - 1067mm(42`) - 30m; PSO

200mic - 1372mm(54`) - 30m; PSO

200mic - 1524mm(60`) - 30m; PSO

Hints & Tips

Papilio Backlit has been specially designed for backlit applications. If you bear this in mind when setting up your printer and evaluate the print when backlit instead of frontlit, you can be sure of producing high strength eye-catching prints using our Backlit film.

Product Properties
